

I Migration Fixes

As noted, IPC team has to run some manual fixes as the content was migrated over but tweaks need to be done.

Rebuild with components provided on a landing page

Some of the pages where components need to be used and the page itself needs to be a landing page are listed below

- <https://test-ipco.pantheonsite.io/en/resources>
- Remove/delete - <https://test-ipco.pantheonsite.io/en/resources/advice-and-submissions> and use LP and build - https://test-ipco.pantheonsite.io/en/node/37/edit?destination=/en/admin/content%3Ftitle%3Dadvice%2520and%2520submissions%26name%3D%26type%3DAI%26moderation_state%3DAI%26langcode%3DAI

Content Updates/Review

Northern pulled a few pages as examples where content has to be updated after migration. The fix needs to be done after the migration is approved
